

Industrial cum Excursion Trip

AIMT organized an industrial cum Excursion trip for its students to the Parle-G factory and Jaipur from 18th March to 19th March 2023, which was an excellent opportunity for the students to gain practical knowledge about the manufacturing processes of one of the most iconic biscuit brands in India.

The trip began with a warm welcome from the factory staff, who gave the students an overview of the company's history and its products. The students then went on a guided tour of the factory, where they witnessed the entire biscuit manufacturing process, right from the mixing of ingredients to the packaging of the finished product.

The students were amazed to see the level of automation and precision in the factory, which highlighted the importance of technology in the manufacturing industry. They also learned about the quality control measures taken by the company to ensure that every biscuit meets the highest standards of quality and hygiene.

The trip ended with a debriefing session, where the students discussed their learnings and insights from the trip. The students appreciated the opportunity to see the theoretical concepts they had learned in the classroom come to life in a real-world setting.

Overall, the industrial trip to the Parle-G factory was an enriching experience for the students, who gained valuable insights into the manufacturing processes of one of India's most beloved biscuit brands. It was an excellent example of AIMT's commitment to providing its students with practical exposure to the industry, helping them become industry-ready professionals.

AIMT took the trip further with an excursion trip to Jaipur for its students, which was an excellent opportunity for them to explore the rich culture, history, and architecture of Pink City.

The trip began with a visit to the Amer Fort, which is a beautiful complex of palaces, gardens, and courtyards that showcases the grandeur and opulence of the Rajput rulers. The students learned about the art and culture of the region and the lifestyle of the royals.

Next, students visited the iconic Hawa Mahal, which is known for its unique honeycomb structure and intricate latticework. The students were awestruck by the stunning beauty of the palace and learned about its historical significance and architectural features.

The excursion also included a visit to the Jantar Mantar, an observatory built in the 18th century by Maharaja Jai Singh II. The students were fascinated by the precision and accuracy of the instruments and learned about the astronomical and mathematical concepts behind them.

The students also had the opportunity to shop for local handicrafts and souvenirs at the vibrant markets of Jaipur, which are known for their colorful textiles, jewelry, and other handicrafts.

The excursion trip to Jaipur was an enriching experience for the students, who gained valuable insights into the art, culture, and history of the region. It was an excellent example of AIMT's commitment to providing its students with a holistic education that goes beyond the classroom and prepares them to be well-rounded individuals.
