Lightening of Lamp as the Beginning of HR Seminar on 15th Oct 2011

Director's Message:

Life in a fully residential campus is always very special for students. Ironically when one lives in such a campus there is always a yearning to be "done-with-it" and move on to the outside world.

It is only when the campus life is behind on the passage of time that the nostalgic memories linger on.

The inaugural NEWSLETTER is a long awaited fast step to capture the campus activities in various hues and shades. This will be a quarterly affair from now onwards. The NEWSLETTER will tell the story in "picture". The spotlight should be on student activities with a fair mix of academic and non-academic contents.

I congratulate the editorial board for a lucid and timely production of its first edition of AIMT, Greater NOIDA, Newsletter Nov 2011.

Brig. (Dr.) Ashok Pathak (Retd)

It kick started in the true style - with auctions, where the girls came together in groups of four, bid for the listed players and form their teams. A total of 6 teams contested this year. Season II began from 27th Aug, 2011 and brought life to the otherwise sleepy Sundays!! The action around the field, was a sight not to be missed, the owners and supporters got into full swing and cheered up their players: banners, music, hooting, whistling, betting and tanning were the pulse around the field. 11th Sept, 2011 was the Day for "Invincible" - the Winning Team, who lifted up the AIPL Cup, presented by the respected Registrar Sir, and paved the way for AIPL Season - III.

MSDP:

Management Skills Development Programme for Judicial Officers of Uttar Pradesh

A judge is the person in charge of a Court. Barring any unforeseen event, the litigation before a judge has to be controlled by him. The introduction of management practices in the judiciary has been a topic of discussion for quite some time now. During this period, many ideas have been mooted to tackle the enormous backlog of pending cases and courtroom management. Since judicial officers bear a number of managerial responsibilities in addition to their technical role, courts are requiring leaders who can create, protect and maintain routines, take risks, question the status quo and stimulate growth in overall operations. Leaders embody ethics and recognize and reward excellence on both sides of the predictability and flexibility challenge. The model behavior of Leaders are needed inside and outside the judicial system.

Judicial Officers training have provoked the ideas to tackle the problem of pending cases and efficient Court room Management. The MSDP curriculum is a complete tailor made programme for the participants. The week - long fully residential course is aimed at exposing the participants to some important management areas which can be utilized for an effective court management. The first batch in the series of MDPs was scheduled from 02nd May to 07th May, 2011 and the second one was conducted from 16th May to 21st May, 2011.

Each MDP consists of thirty participants from differing levels of judicial hierarchy, such as new entrants at the Junior Magistrate level to the District judges. The programme is designed to train about 1000 participants over the next two years.
