

AIMT/140/86/Solar

Mar 2023

**CALLING FOR QUOTATION: INSTALLATION OF 200KW ROOFTOP  
SOLAR POWER PLANT ON RESCO MODEL AT AIMT GREATER NOIDA**

1. Sealed limited tenders are invited to find out suitable vendor/firm for the following work in AIMT Greater Noida. Scope of work is as under: -

S. No	Nomenclature	Remarks
(a)	Installation of 200 KW Rooftop Solar Power Plant on RESCO Model at AIMT Greater Noida.	Scope of work and Technical specifications attached as per Index. Before quoting the rates please visit the site in AIMT to work out complete power generation capacity as the maximum savings being achieved by AIMT in terms of maximum assured power production and minimum tariff rates for PPA will be the deciding factor for award of tender.

2. Quotation of rates should be as under:-

- (a) Valid for minimum 90 days from the date of opening of quotations.
- (b) Quoted after mentioning and inclusive of GST as applicable in Delhi NCR.
- (c) Financial & technical bid should be enclosed in separate envelope and these two envelopes should be submitted together in one envelope.
- (d) Quoted both in figures and words.
- (e) No cutting/ erasing/ overwriting may be done. Corrections if any should be initialed.

3. Quotations are to be sent as under:-

- (a) In a sealed envelope Marked / enclosed in bold letters as under:-

**“INSTALLATION OF 200 KW ROOFTOP SOLAR POWER PLANT  
ON RESCO MODEL AT AIMT GREATER NOIDA ”**

TENDER AGAINST NIT NO : AIMT/140/86/SOLAR DT 26 Mar 2023  
DUE DATE OF OPENING OF TENDER : 14 Apr 23

- (b) Quotation to be dropped into the TENDER DROP BOX kept at Reception in Administrative Block of AIMT Greater Noida, during 0900-1530 hrs only. Quotation can also be sent by registered post/speed post/courier at following address:-

To  
The Director,  
Army Institute of Management & Technology  
Plot No M-1, Pocket P-5  
Greater Noida, (UP)-201310

- (c) By 1000 hrs on 14 Apr 2023.

Contd..P/2

4. Opening of quotations will be as under:-
- (a) Technical bids will be opened at 1100 hours on 14 Apr 23. Financial bids will be opened only after technical bids have been scrutinized.
  - (b) Place of opening quotations is at reception of AIMT Greater Noida.
  - (c) Your authorized representative may attend the opening of quotations. Quotations not received by due date will not be considered.
  - (d) Unmarked cover/incomplete quotation are liable to be rejected or ignored at the discretion of the Board of Officers for quotation opening.
  - (e) Accepting authority, i.e. Board of Officers is not bound to accept the lowest or any quotation and reserves the right for acceptance of the quotation as a whole or in part depending on the rates.
5. In case of any dispute with reference to execution of the Supply Order, HQ Delhi Area will be the appointing auth with reference to arbitration.

(Dr J K Sahu)  
Air Cmde (Retd)  
Director

**NOTICE INVITING TENDER**

**ARMY INSTITUTE OF MANAGEMENT & TECHNOLOGY, GREATER NOIDA**

NAME OF THE WORK: For installation of 200 KWp Grid-Connected solar rooftop at various building of AIMT Greater Noida under RESCO Model.

CAPACITY: 200 KWp

PPA TENURE: 15 Years

Last Date and Time of Submission:	14 Apr 23 at 10:00 hrs.
Date of Opening of Technical Bid (Part A):	14 Apr 23 at 11:00 hrs.
Date of Opening of Price Bid (Part B):	After technical Bid opening
Address for submission & Opening of Bid:	AIMT Reception, Plot No M-1, Pocket P-5, Greater Noida (UP)-201310
Tender Document Fee	INR 1,000/- in DD (Bidders downloading tender documents from website should pay at the time of submission of Tender).

**INDEX**

Sl. No.	Description	PageNo.
1	Tender Notice Preface	1
2	Notice Inviting Tender	3
3	Index (This Page)	4
4	Eligibility Criteria	7
5	Instructions to tenderer	8
6	Special Conditions of Contract	27
7	Technical Specifications	31
8	Price Bid	40
9	Quality Certification, Testing & Standards	41
10	Annexure I : Covering letter	43
11	Annexure II : General Particulars of the Bidder	45
12	Annexure III : Power of Attorney	46
13	Annexure IV : Form of Agreement	48
14	Annexure V : Declaration	50
15	Annexure VIII : Declaration of Bid Security	54
16	Annexure IX : Check list of Mandatory Documents (To be uploaded / sent)	55

**NOTICE INVITING TENDER (NIT)**

1. Army Institute of Management & Technology, Greater Noida Invites tenders for the under mentioned work from eligible **Bidders/Vendors**, who are having valid registration for SITC of Solar PV system (Also, OEM's of Solar PV Modules/ Solar Cells are eligible). (A copy of certificate of incorporation shall be furnished along with the bid in support of above).

1	Name of the work	Implementation of grid tied Rooftop Solar Power Plant on RESCO Model in selected premises of AIMT.	
2	Value of Work / cost of project	Rs._____ (Approx.) per site.	
3	Date and Time where tender forms are available	Available from 1100hrs on 14 Apr 23 to 1030hrs on 14 Apr 23 at www.aimt.ac.in	
4	Pre bid Meeting/Conference	On 10:30 am 14 Apr 23 at AIMT.	
5	Time and last date of submission of Tender	Up to 10:00AM on 14 Apr 23	
6	Address for submission of tender.	In Tender Box at AIMT Greater Noida	
7	Date, Time and Place of opening of Tenders	Technical Bid :	On 14 Apr 23 @ 11.00AM
		Price Bid :	After technical Bid opening
		Venue:	AIMT Greater Noida
8	Quantum of Earnest Money Deposit (EMD).	Rs 10,000/-in form of DD Drawn in favor of 'Army Institute of Management & Technology' payable at Greater Noida' which will be refunded on successful commissioning of project.	
9	Maximum allowable levelized tariff	Rs. 5.50 per Unit	
10	Terms of payment of Bills	(a) No Advance will be paid (b) On successful commissioning, Invoices raised on Monthly basis as per Net Solar Power Generation.	
11	Stipulated time for completion of the work / supply.	90 Days	
12	Validity period of the tender.	180 days from last date for receipt of tender	
13	Eligible Taxes	(a) Income Tax will be deducted at source as per Govt Guidelines.  (b) Reimbursement of GST will be made only on submission of proper GST invoice as per applicable GST provisions/Rules. The contractor should comply with the following:- (i) Contractor should have GST Registration Number. (ii) Invoice should specifically/separately disclose the amount of GST levied at applicable rate as per GST provisions/Rules. (iii) In case of Correction in the bills after scrutiny, contractor should submit fresh bills for payment. (iv) Contractor should timely file his GST return in accordance with GST provisions to enable the AIMT to claim the credit of GST paid to the contractor.	

14	Electronic Payment	Electronic payment shall be preferred. All the contractor must furnish contact details for communication:- (a) Name of their Bank (b) Name of their branch (c) Account number (d) Name of the account holder as in the Bank account (d) IFSC No of the branch (e) PAN number.
15	Defect Liability Period.	(a) Plant owned by Successful bidder. (b) Responsible for uninterrupted operation from date of Virtual Completion / Date of operation
16	O&M period/ PPA Time Period	15 years from the commissioned-on-date (COD)
17	For further Clarifications on Technical matters	(a) All technical matter related to Project will be communicated to Hony Capt Yogesh Kumar, Estate Supervisor, Mob No 8390112294
18	Any additional Information	The quoted rate should be inclusive of materials, labour, wages, fixtures, transportation, installation, all taxes (excluding GST if any), wastage's, Octroi, machinery, temporary works such as scaffolding, cleaning, overheads, profit, statutory expenses, incidental charges and all related expenses to complete the work.

2. Any clarifications sought after opening of the tenders will not be entertained at any cost. Firm may visit the site till last date of submission for changes/ corrigendum if any.

3. In case the date of opening of tenders is declared as a holiday, the tenders will be opened on the next working day at the same time. At any time prior to the deadline for submission of Bids, the AIMT may, for any reason, whether at its own initiative or in response to a clarification requested by a prospective Bidder, modify the RFS document by issuing clarification(s) and/or amendment(s).

4. The AIMT has the right to cancel or postpone the tenders at any stage without assigning any reasons.

## **ELIGIBILITY CRITERIA**

### **General**

The Bidders, fulfilling of the following eligibility conditions shall be Considered for opening financial bids:-

- (a) The Bidder should be either a body incorporated in India under the Companies Act, 1956 or 2013 including any amendment thereto and engaged in the business of Solar Power **(A copy of certificate of incorporation shall be furnished along with the bid in support of above)**.
- (b) Only MNRE/ SECI/ IREDA/ NISE/ NREDCAP registered Vendors/ RESPCO having valid registration for SITC of Solar PV system.
- (c) The OEM's of Solar PV Modules/ Panels and Solar PV System Integrators with Registered/ branch office in Delhi/NCT shall be eligible to participate

### **Technical Eligibility Criteria**

- (a) Vendors who have **minimum 5 year's experience** in the field of undertaking similar works viz Supply, Installation, Testing and Commissioning of Grid Connected SPV Based Solar Power System on RESCO / OPEX model for the Office Buildings / Commercial Premises / Industrial Houses and have, during the last 5 years (as on date of tender), executed successfully similar works individually costing as under:

Minimum Three works each of minimum 200 **KWp** on CAPEX/ OPEX model.

OR

Minimum Two works each of minimum 200 **KWp** on CAPEX/ OPEX model.

OR

Minimum One work of 400 **KWp** on CAPEX/ OPEX model.

- (b) The Bidder should have installed & commissioned at least one Grid connected Solar PV Power Project having a capacity of not less than 200 **KWp** which should have been commissioned at least One year prior to Techno-Commercial Bid Opening date **(A copy of the Commissioning certificate and Work order / Contract / Agreement from the Client/Owner shall be submitted in support)**.

### **Financial Eligibility Criteria**

- (a) The Bidder should have Annual Turnover as indicated below.
- (b) The cumulative Annual turnover of Rupees **3 Crore in the last 3 financial years** preceding the Bid Deadline subject to the condition that the Bidder should at least have completed one financial year for the purposes of meeting financial requirements, only audited annual accounts/ P&L Statement duly certified by Authorized Signatory and the Statutory Auditor / Practicing Chattered Accountant of the Bidding Company shall be used/ considered for the purpose of evaluation of the Bid.

## **INSTRUCTIONS TO THE TENDERER**

### **1. Size of the Project**

The capacity generated for each location may vary based on locations of AIMT. One project may however comprise of several rooftop units, in such case, all the roof top units to be connected together & connected with the grid and have single meter in each location.

### **2. Tender Documents**

(a) The work has to be carried out strictly according to the conditions stipulated in tender consisting the following documents and the most workman like manner:-

- (i) Instructions to tenderer
- (ii) General Conditions of Contract
- (iii) Special Conditions of Contract
- (iv) Additional Conditions for Solar PV Installation
- (v) Technical Specifications Drawings (if incorporated)
- (vi) Price Bid

(b) The above documents shall be taken as complementary and mutually explanatory of one another but in case of ambiguities or discrepancies, shall take precedence in the order given below:-

- (i) Price Bid
- (ii) Technical Specifications
- (iii) Additional Conditions for Solar PV Installation
- (iv) Special Conditions of Contract
- (v) General Conditions of Contract
- (vi) Instructions to Tenderer

(c) Complete set of tender documents including relative drawings can be obtained/downloaded from the AIMT web site on any Day during the period mentioned in the NIT. The tender documents are not transferable.

### **3. Site Visit**

(a) The tenderer must obtain on his own responsibility and his own expenses all information and data which may be required for the purpose of filling this tender document and enter into a contract for the satisfactory performance of the work. The Tenderer is required to satisfy himself regarding the availability of water, power, transport and communication facilities, the character quality and quantity of the materials, labour, the law and order situation, climatic conditions local authorities requirement, traffic regulations etc.; The tenderer will be fully responsible for considering the financial effect of any or all the factors while submitting his tender. The tenderer should visit the site to ascertain the working conditions and local authority regulations / restrictions, if any, and other information required for the proper execution of the work.

### **4. Clarifications and Pre-Bid Meeting**

(a) The AIMT will not enter into any correspondence with the Bidders, except to furnish clarifications on RFS Documents, if necessary. The Bidders may seek clarifications or suggest amendments to RFS in writing, through a letter or by e-mail to reach AIMT at the address, mentioned in Bid information sheet. The Bidder(s) or their authorized representative(s) is /are invited to attend pre-bid meeting(s), which will take place on date(s) as specified in Bid information sheet, or any such other date as notified by AIMT.

(b) The purpose of the pre-bid meeting will be to clarify any issues regarding the RFS including in particular, issues raised in writing and submitted by the Bidders. AIMT is not under any obligation to entertain/ respond to suggestions made or to incorporate modifications sought for.

**5. Bidder for Participation**

(a) Submit bids under RESCO/ OPEX Model for the locations mentioned in above in Clause 1. The scheme targets installation of grid-connected roof top solar PV projects on the roofs of AIMT owned/leased Premises of AIMT. The generated solar power may be utilized for captive application and the surplus power will be fed to the grid. The scheme aims to reduce the fossil fuel-based electricity load on main grid and make building self-sustainable from the point of electricity, to the extent possible. The Bidder is advised to read carefully all instructions and conditions appearing in this document and understand them fully. All information and documents required as per the bid document must be furnished. Failure to provide the information and / or documents as required may render the bid technically unacceptable.

(b) The bidder shall be deemed to have examined the bid document, to have obtained his own information in all matters whatsoever that might affect the carrying out the works in line with the scope of work specified elsewhere in the document at the offered rates and to have satisfied himself to the sufficiency of his bid. The bidder shall be deemed to know the scope, nature and magnitude of the works and requirement of materials, equipment, tools and labour involved, wage structures and as to what all works, he has to complete in accordance with the bid documents irrespective of any defects, omissions or errors that may be found in the bid documents.

**6. Bid Submitted by A Bidding Company/ Power of Attorney**

(a) The Bidding Company should designate one person to represent the Bidding Company in its dealings with AIMT. The person should be authorized to perform all tasks including, but not limited to providing information, responding to enquires, signing of Bid etc. The Bidding Company should submit, along with Bid, a Power of Attorney in original, authorizing the signatory of the Bid.

**7. Earnest Money Deposit**

(a) The tenderer is requested to submit an amount of 10,000/- (Rupees Ten thousand only) as the Earnest Money or Bid Security Declaration. EMD in any other form other than as specified above, will not be accepted. Tender not accompanied by the EMD in accordance with above shall be rejected. No interest will be paid on the EMD. EMD of unsuccessful tenderer will be refunded within 30 days of award of Contract. EMD of successful tenderer will be retained as a part of security deposit (or) returned on compensatory submission of Security Deposit (including EMD amount forfeit of EMD: The EMD will be forfeited under the following conditions:-

(i) If the tenderer withdraws or amend, impairs or derogates from the tender in any respect within the period of validity of the tender.

(ii) If the bidder withdraws the bid before the expiry of the validity period of the bid or within the time frame of extension given by AIMT in special case communicated before the expiry of the bid.

(iii) If the bidder fails to comply with any of the provisions of the terms and conditions of the biddocument.

(iv) If the selected bidder fails to execute agreement in prescribed format and furnish the Security Deposit within the prescribed time.

**8. Submission of Bids**

Tenders bids should be dropped in tender box of AIMT or to be sent by Registered post/speed post. The tender shall be submitted in two parts, viz., Technical Bid and Financial/Price Bid with acceptance of Tender Conditions. In addition, scanned copies of required (as mentioned in NIT) Mandatory checklist documents should be submitted.

**9. Tender Evaluation**

**(a) Technical Bid**

(i) The list of documents, which are mandatory & specified in Tender Notice are to be furnished by the bidder. Only Technical Bids of those contractors, who submit the earnest money in the prescribed manner, will be opened. All Technical bid documents will be verified at the tender opening time specified in Notice Inviting Tender.

(ii) Technical bids of bidders whose EMD was not received physically, will not be opened. If the Bidders failed to submit the listed mandatory documents, they will be disqualified.

(iii) Tender documents found partly or fully modified / altered/ corrected etc shall stand summarily rejected.

(iv) Any clarifications sought after opening of the tenders will not be entertained at any cost. Tender Document duly signed & stamped by the respective bidder in pdf format only will be validated. If any bidder submits false/fake document, they will be banned from doing work in AIMT. Financial bids of those bidders who qualify in technical bid will only be opened.

**(b) Financial Bid**

The rates quoted by the Bidder will be validated / scrutinized by committee and compared to Market price for adaptability. The lowest total rate quoted will be considered for award of work. The tariff for all the locations shall be as per levelized tariff quoted for per unit rate only. Bidder submitting bid above the maximum allowable project cost/ Tariff shall be rejected.

**10. Zero Deviation**

This is a ZERO Deviation Bidding Process. Bidder is to ensure compliance of all provisions of the Bid Document and submit their Bid accordingly. Tenders with any deviation to the bid conditions shall be liable for rejection.

**11. Validity of Tender**

Tenders shall remain valid and open for acceptance for a period of **180 Days** from the date of opening price bid. If the tenderer withdraws his/her offer during the validity period or makes modifications in his/her original offer which are not acceptance to the AIMT without prejudice to any other right or remedy the AIMT shall be at liberty to forfeit the EMD.

**12. Taxes and Duties**

The tenderer in their quoted tender prices must include all taxes (except GST) and duties royalties, cess, local charges if applicable. No extra claim on this account will in any case be entertained. Price bids are invited inclusive of duties and taxes (except GST). However, Tax exemptions including certificates of any sort, if available may be dealt with the concerned Dept of Govt. of India by the bidder. AIMT in no case will be responsible for providing any tax exemptions to the bidder.

**13. Rates and Prices/ Levelized Tariff**

(i) The tenderer shall quote their rate/ tariff as per unit (unit energy) for 15 years. CERC Regulations, 2012 will be followed adherently by the bidder for tariff.

S.N.	Description of Work & Services	Fixed tariff	Tenure
1	200KWp Design, Supply, Installation, testing & Commissioning with 15 year Operations & Maintenance.	Rs. .... /per unit	15 years

(ii) In order to avoid the discrepancy in quoted rates, work out well before proceeding for bid submission. The tenderer should not change the units as specified in the tender. If any unit is changed the tenders would be evaluated as per the original unit and the contractor would be paid accordingly.

(iii) The L1 Bidder shall be finalized on basis of lowest Levelized Tariff rate quoted by firm. The tariff quoted shall include all costs, allowances, insurances, taxes, levies, etc. excluding GST.

(iv) The Levelized tariff shall include all the costs related to above Scope of Work (Solar PV System implementation and connection with necessary protection equipment).

(v) Bidder shall quote for the entire facilities on a “single responsibility” basis such that the total Bid Price covers all the obligations mentioned in the Bidding Documents in respect of Design, Supply, Erection, Testing and Commissioning including Warranty, Operation & Maintenance for a period of 15 years under RESCO/ OPEX model, goods and services including spares required if any during O&M period

**14. Implementation in Opex Model**

Grid-connected solar PV systems feed solar energy directly into the building loads without battery storage. Surplus energy, if any, is exported to the AIMT grid and shortfall, if any, is imported from the grid. In OPEX model, successful bidder shall be allocated roof top area for implementation of Solar PV System and generated power purchased by roof top owner as per PPA Agreement.

**15. Solar PV System**

The Bidder has to take all permits, approvals and licenses, Insurance etc., provide training and such other items and services required to complete the scope of work mentioned above. Procurement shall be as per technical specifications and installation of system shall be as per approval from AIMT.

**16. Operation & Maintenance/ PPA Period**

The operation & maintenance of Solar Photovoltaic Power Plant would include wear, tear, overhauling, machine breakdown, insurance, and replacement of defective modules, invertors/ Power Conditioning Unit (PCU), spares, consumables & other parts for a period of 15 years under RESCO model.

**17. Transfer of Ownership**

(i) Upon completion of contracted O&M period (15 years), Solar PV system shall be automatically transfers the ownership to AIMT free of cost and also renews the O&M contract agreement on mutual agreement. Within the period of Contract O&M period (15 years) and with minimum of 10 years uninterrupted operation of system, AIMT solely has rights to transfer the ownership/ purchase the Solar plant of such location with the Market analyzed rates / salvage value. In such case, the Bidder/ RESCO cannot coerce AIMT to do so or not.

(ii) The successful bidder has to transfer all the Guarantees /Warrantees of the different components to the Owner of the project on salvage/ purchase by the owner. The responsibility of operation of Warrantee and Guarantee clauses and Claims/ Settlement of issues arising out of said clauses shall be joint responsibility of the Successful bidder, AIMT will not be responsible in any way for any claims whatsoever on account of the above.

**18. Right to Withdraw the RFS and to Reject any Bid**

This RFS may be withdrawn or cancelled by the AIMT at any time without assigning any reasons thereof. The AIMT further reserves the right, at its complete discretion, to reject any or all of the Bids without assigning any reasons whatsoever and without incurring any liability on any account. AIMT reserves its right to vary, modify, revise, amend or change any of the terms and conditions of the Bid before submission. The decision regarding acceptance or rejection of bid by AIMT will be final. The acceptance of a tender will rest with the Competent Authority, who does not bind himself to accept the lowest tender and reserves to himself the authority to reject any or all the tenders received, without assigning any reasons. All tenders in which any of the prescribed conditions are not fulfilled or are incomplete in any respect are liable to be rejected.

**19. Relocation**

If one or more of the Solar Power Plant panels needs to be temporarily moved or its generation suspended, for any other reason requested by the Power Purchaser, the Power Purchaser will be responsible for pre-agreed costs on actual only, arising from moving, disassembling and re-installing/ commissioning the Solar Power Plant, as agreed between the Parties. The Power Producer will be responsible for providing detailed documentary proof of the actual pre-agreed costs borne for such relocation/ disassembling. Within 30 days of these satisfactory documents being provided by the Power Producer, the Purchaser shall reimburse these pre-agreed expenses in full, and delayed payment beyond the date mentioned above will attract Late Payment charges as described in Clause 7.6. During any interruption in generation during such relocation, the Purchaser will continue to be billed as per Deemed Generation at CUF of 15%, during the period of interruption, for the affected Solar Power Plant(s). In case of permanent removal of Solar plant at any of the sites due to AIMT requirement compensation payable shall be as per Schedule –III.

## GENERAL CONDITIONS OF CONTRACT

### 1. Definitions

(i) In the contract the following expressions shall, unless the context otherwise requires, have the meaning hereby respectively assigned to them. 'AIMT' shall mean Army Institute of Management & Technology, Greater Noida College and Hostel Complex buildings were constructed during the period Jan 2004 to Jan 2008 under the aegis of Project Mgt Gp Dy Dte Gen of Wks(AF), E- in -C's Branch, IHQ of MoD (ARMY), Kashmir House , Rajaji Marg ,New Delhi. 'Site Engineer' shall mean an employee appointed by the AIMT as their representative to give instructions to the contractors.

(ii) 'The Contractor' shall mean the documents forming the tender and the acceptance thereof and the formal agreement executed between AIMT (Client) and the contractor, together with the documents referred therein including these conditions, the specifications, designs, drawings and instructions issued from time to time by the AIMT and all these documents taken together shall be deemed to form one contract and shall be complementary to one another.

(iii) 'Works' or 'Work' shall mean the permanent or temporary work described in the 'Scope of Work' and/or to be executed in accordance with the contract and includes materials, apparatus, equipment, temporary supports, fittings and things of all kinds to be provided, the obligations of the contractor hereunder and work to be done by the contractor under the contract. 'Engineer' shall mean the representative of the AIMT/Architect.

(iv) 'Drawings' shall mean the drawings prepared by the AIMT and issued by the Engineer and referred to in the specifications and any modifications of such drawings as may be issued by the Engineer from time to time 'Contract value shall mean the value of the entire work as Stipulated in the letter of acceptance of tender subject to such additions thereto or deductions there from as may be made under the provision herein after contained. 'Specifications' shall mean the specifications referred to in the tender and any modifications thereof as may time to time be furnished or approved by the AIMT/Architect

"Month" means calendar month.

"Week" means seven consecutive days.

"Day" means a calendar day beginning and ending at 00 Hrs. and 24 hrs respectively.

"B.I.S" shall mean specifications of Bureau of Indian Standards (BIS)

(v) 'Bid' shall mean the Techno Commercial and Price Bid submitted by the Bidder along with all documents/credentials/attachment's annexure etc., in response to this RFS, in accordance with the terms and conditions here of.

(vi) "Bidder/Bidding Company" shall mean Bidding Company submitting the Bid. Any reference to the Bidder includes Bidding Company / including its successors, executors and permitted assigns as the context may require;

"CEA" shall mean Central Electricity Authority.

“COD” means commissioned on date i.e. successful operation of the Project / Works by the Contractor, for the purpose of carrying out Performance Test(s) as defined in RFS.

“Company” shall mean a body incorporated in India under the Companies Act, 1956 Or Companies Act, 2013 including any amendment thereto;

“Capacity Utilization Factor” (CUF) shall mean the ratio of actual energy generated by SPV project over the year to the equivalent energy output at its rated capacity over the yearly period. (CUF = actual annual energy generated from the plant in kWh / (installed plant capacity in kW \* 365 \* 24)).

“Eligibility Criteria” shall mean the Eligibility Criteria as set forth in this RFS.

"KWp" shall mean kilo-Watt Peak.

"KWh" shall mean kilo-Watt-hour.

"MNRE" shall mean Ministry of New and Renewable Energy, Government of India.

"O&M" shall mean Operation & Maintenance of Rooftop Solar PV system for 15 years.

"OEM" shall mean Original Equipment manufacturers of Rooftop Solar PV system PV Cells/Solar Panels.

“Project capacity” means Capacity in KWp offered by the Bidder for each State consisting of single or multiple roof tops. The project capacity specified is on “DC” output Side only.

“SPG” means Solar Power Generator i.e. successful bidder for the location of project.

“P P A” means Power Purchase Agreement between AIMT and Successful bidder.

“P B G” means Performance Bank Guarantee between AIMT and Successful bidder, Renewed periodically up to end of the PPA time period.

“Performance Ratio” (PR) means the ratio of plant output versus installed plant capacity at any instance with respect to the radiation measured.  $PR = (\text{Measured output in kW} / \text{Installed Plant capacity in kW} * (1000 \text{ W/m}^2 / \text{Measured radiation intensity in W/m}^2))$ .

“RESCO” shall mean Renewable Energy Service Companies.

“OPEX model” shall mean where the bidders intend to take a roof top owned by some other entity on mutually agreed terms and conditions from the roof top owner(s) and enters into the PPA with rooftop owner / DISCOM / others for supply of Solar power for 15 years from the date of Commissioning of project.

“SNA” shall mean State Nodal Agency.

“NISE” shall mean National Institute of Solar Energy.

“IREDA” shall mean Indian Renewable Energy Development Agency.

“CERC” shall mean Central Electricity Regulation Commission, 2012 or amended thereof.

**2. Interpretations**

Words comprising the singular shall include the plural & vice versa. An applicable law shall be construed as reference to such applicable law including its amendments or re-enactments from time to time. A time of day shall save as otherwise provided in any agreement or document be construed as a reference to Indian Standard Time. Different parts of this contract are to be taken as mutually explanatory and supplementary to each other and if there is any differentiation between or among the parts of this contract, they shall be interpreted in a harmonious manner so as to give effect to each part. The table of contents and any headings or subheadings in the contract has been inserted for ease of reference only & shall not affect the interpretation of this agreement.

**3. Scope of Work of Selected Supplier**

(a) Scope of work covers Design, Manufacture, Supply, Installation & Commissioning of SPV Rooftop on OPEX model as per the technical specification and Maintenance for a period of 15 years.

(b) The contractor shall carry out, complete and maintain the said work in every respect strictly in accordance with this contract and with the directions of and to the satisfaction of the AIMT to be communicated through the AIMT. The details are as under:-

<b>SCOPE</b>	<b>DETAILS</b>
Survey	The successful bidder shall assess:- (i) Roof structural stability, (ii) Load bearing capacity, (iii) Solar resource availability, (iv) Identification health & Safety risks, (v) Shadow free area on roof top...etc for hassle free operation of system and also data to be approved by AIMT.
Design	(i) Selecting efficient PV Modules, (ii) Optimum Detailed PV Panels layout, (iii) Inverter selection, (iv) Mounting structure, (v) Routing cables and connectivity, (vi) Attaining maximum output (max. utilization of rooftop area), (vii) Ensuring Safety standards...etc.
Manufacture	As per standards & specifications mentioned in the Tender Document
Supply & Installation	(i) Equipment acquisition (ii) Obtaining Permits (iii) Solar PV System Installation as per standards (iv) Wiring up to Distribution Board from the SPV Rooftop system (v) Online Monitoring system for Local & Remote Data Monitoring...etc.
Testing	Testing of Modules, System Performance Evaluation, and Capacity Utilization Factor (CUF)...etc. of the complete Solar PV system as per the Technical specifications.

Commissioning	(i) Obtaining Approval of Statutory Authorities like CEA, SNA's, MES...etc. (ii) Virtual Completion Certificate from AIMT (iii) All the necessary activities for successful commissioning of the system shall be responsible of bidder. Any deposits/ fees to be paid by the Roof top owner for acquiring permission from Govt Authorities...etc., shall be borne by AIMT.
O&M (PPA Period)	On completion/ commissioning of the system PPA shall be signed up to 15 years as per the tariff agreed. Operation and Maintenance of the Total system shall be the complete responsibility of successful bidder. If the operation or use of the system proves to be unsatisfactory during the period, the supplier shall replace the faulty ones or carry out necessary repairs as per the PPA terms and conditions.

(c) The AIMT from time to time will issue further written instructions, details directions and explanations which are hereafter collectively referred to as AIMT's instructions in regard to: the variation or modification of the design, quality or quantity of work or the addition or omission or substitution of any work, any discrepancy in the drawings or between the BOQ and/or drawings and/or specifications, the removal from the site of any material brought thereon by the contractor and the substitution of any other materials thereof, the demolition, removal and/or re-execution of any work executed by him, the dismissal from the work of any person employed/engaged thereupon. The eligible (MNRE and State) subsidy will be released based on MNRE /State Govt. Policies and guidelines either directly to the supplier or to the beneficiary, based on the declaration submitted by the beneficiary. The procedure for availing subsidy and for submission of proposals shall be as per State Nodal Agencies for Solar Mission & MNRE provisions.

**4. Signing of Contract Documents**

The successful tenderer shall be bound to implement the contract by signing an agreement and conditions of contract attached herewith within 15 days from the receipt of intimation of acceptance of his tender by the AIMT. However, the written acceptance of the tender by the AIMT will constitute a binding agreement between the AIMT and successful tenderer whether such formal agreement is subsequently entered into or not.

**5. Completion Period**

The Successful Tenderer shall complete the work within 90 days from the date of the work order issued to the contractor to commence the work. The work shall be considered as complete only when the certificate of virtual completion is issued by the AIMT. The 'defects liability period' as prescribed in the contract shall commence only from date of such virtual completion. Any defect that may appear within the defect's liability period shall be rectified by the contractor within reasonable time on receipt of necessary instructions from AIMT to that effect.

**6. Penalty**

AIMT will issue the sanction letter(s) for the Project (s) indicating the clearance for further proceeding. The Bidder shall complete the project survey, design, engineering, manufacture, supply, storage, civil work, erection, testing & commissioning of each project within **3 months** from the date of issue of allocation letter.

**8. Delay for Implementation Period**

If the bidder fails to commission the allocated capacity within 3 months from date of issue of allocation letter, Penalty shall be calculated @ **0.5% of the security deposit per week of delay subject to a maximum penalty of 5% of the total security deposit** would be strictly imposed. Upon further delay, the allocation of project order shall be cancelled and the Security Deposit amount pro-rata to noncommissioned capacity would be forfeited.

**7. PPA Period**

If the bidder fails to deliver minimum output units as per PPA, bidder shall be penalized accordingly.

**8. Allocation of Work**

**(a) Letter of Acceptance/ Award**

Within the validity period of the tender, the AIMT shall issue a letter of acceptance by registered post or otherwise depositing at the address of the contractor as given in the tender to enter into a Contract for the execution of the work as per the terms of the tender. The letter of acceptance shall constitute a binding contract between the AIMT and the contractor.

**(b) Contract Agreement**

On receipt of intimation of the acceptance of tender from the AIMT the success full tenderer shall be bound to implement the contract and within fifteen days thereof he shall sign an agreement in a non- judicial stamp paper of appropriate value including submission of Security deposit. Two copies of agreement/tender document duly signed by both the parties with the drawings shall be handed over to the contractors. On successful completion/ Commissioning of the project security deposit will be refunded and a new PPA agreement shall be signed between both the beneficiary and successful bidder (owner of solar PV system).

**(c) Power Purchase Agreement (PPA)**

A draft copy of standard PPA to be executed between the AIMT/ Beneficiary and the Successful bidder is provided by AIMT along with Tender. After successful commissioning of system, PPA will have to be executed by Solar Power Generator (SPG). The PPA shall be for a period of 15 years from the date of COD.

**9. Performance Security / Performance Bank Guarantee (Pbg)**

(a) After the successful commissioning of System, within 07 days from the date of issue of Virtual Completion Certificate, Successful Bidder shall furnish the Performance Bank Guarantee for the sum equal to 10% of total cost of the project. PBG and PPA Agreement shall be submitted separately for each location under OPEX/ RESCO model with AIMT. The Performance Security shall be denominated in Indian Rupees and shall be in one of the following forms:-

(i) A Bank guarantee from the Scheduled/ Nationalized Banks.

(ii) The PBG shall be forfeited in the following event without prejudice to the Bidder being liable for any further consequential loss or damage incurred to AIMT. If the Successful Bidder is not able to deliver minimum output (throughout PPA period) to the satisfaction of AIMT, PBG amount shall be forfeited. The Performance Security shall be valid for a minimum period of 12 months from the date of issue of Allocation letter(s) and shall be renewed / extended till the completion of 15 years of O&M from the date of commissioning.

10. **Detailed Drawings And Instructions**

The SPG shall survey the project site location, design the solar PV system and furnish with reasonable promptness additional instructions by means of drawings or otherwise necessary for the proper execution of the work. All such drawings and instructions shall be pre-approved by AIMT and there to consistent with the contract documents, true developments thereof and reasonably infer-able there from. The work shall be executed in conformity therewith and the contractor prepare a detailed programmerschedule indicating therein the date of start and completion of various activities on receipt of the work order and submit the same to the AIMT.

11. **Commencement of Works**

The date of commencement of the work will be reckoned as the recorded date of handing over site by the AIMT or 15 days from the date of issue of Letter of Acceptance of AIMT, whichever is later.

12. **Language Errors, Omissions and Discrepancies**

In case of errors, omissions and/or disagreement between written and scaled dimensions on the drawings or between the drawings and specifications etc., the following order shall apply. Between scaled and written dimension (or description) on a drawing, the latter shall be adopted. Between the written or shown description or dimensions in the drawings and the Corresponding one in the specification the former shall be taken as correct. Between the duplicate/subsequent copies of the tender, the original tender shall be taken as correct.

13. **Protection of Works and Property**

(i) The contractor shall continuously maintain adequate protection, of all his work from damage and shall protect the AIMT properties from injury or loss arising in connection with contract. The contractor shall be responsible for any loss or damage to AIMT property, materials, tools or other articles used held for use in connection with the work. He shall make good any such damage, injury, loss due to his fault or negligence except which are due to causes beyond his control. He shall take adequate care and steps for protection of the adjacent properties.

(ii) The contractor shall take all precautions for safety and protection of his employees on the works and shall comply with all applicable provisions of Government and local bodies safety laws and building codes to prevent accidents, or injuries to persons or property of about or adjacent to his place of work. The contractor shall take insurance covers at his own cost.

(iii) In case the contractor refuses to comply with the order the Employer shall have the power to employ and pay other agencies to carry out the work and all expenses consequent thereon or incidental thereto as certified by the Employer / AIMT shall be borne by the contractor or may be deducted from any money due to or that may become due to the contractor. No certificate shall relieve the contractor from his liability in respect of unsound work or bad materials.

14. **Quality of Materials, Workmanship & Standards**

(i) The Design, engineering, manufacture, supply, installation, testing and performance of the equipment shall be in accordance with latest appropriate IEC/Indian Standards as detailed in the Technical specifications of the bid document. Where appropriate Indian Standards and Codes are not available, other suitable standards and codes as approved by the MNRE shall be used.

(ii) The specifications of the components should meet the requirements mentioned in Technical specifications. Any supplies which have not been specifically mentioned in this Contract, but which are necessary for the design, engineering, manufacture, supply & performance or completeness of the project shall be provided by the Bidder without any extra cost and within the time schedule for efficient and smooth operation and maintenance of the SPV plant. The contractor shall always enforce strict discipline and good order among his employees and shall not employ on the work any unfit person or anyone not skilled in the work assigned to him. All materials shall be new and both workmanship and materials shall be of best quality. The contractor shall provide and pay for all materials, labour, water, power, tools, equipment transportation and any other facilities that are required for the satisfactory execution and completion of the work.

**15. Work Performed at Contractors Risk**

All works shall be done by the contractor with utmost care and if any loss or damage shall result from fire or from others cause, the contractor shall promptly make good such loss or damage / or replace and make the employer free from all such expenses. The work shall be carried on to completion without interferences with the operations of existing machinery or equipment, if any. In case, performance of Solar PV System found unsatisfactory during any time, AIMT has rights to terminate the contract.

**16. Authorities, Notices, Patent Rights and Royalties**

The contractor shall conform to the provisions of any Acts of the Legislature relating to the work, and to the Regulations and Bye-Laws of any authorities, and / or any water, lighting and other companies, and / or authorities with whose systems the structures were proposed to have connection and shall before making any variations from the drawings or specifications that may be associated to so conform, give the Employer / AIMT written notices specifying the variations proposed to be made and reasons for making them and apply for instruction thereon. The Employer / AIMT on receipt of such intimation shall give a decision within a reasonable time.

The contractor/s shall arrange to give all notices required for by the said Acts, Regulations or Bye- laws to be given to any authority, and to pay to such authority or to any public officer all fees that may be properly chargeable in respect of the work and lodge the receipts with the Employer.

The Contractor shall indemnify the Employer against all claims in respect of patent rights, designs, trade Marks or name or the protected rights in respect of any constructional plant, machine, work or material used for or in connection with the works or temporary works and from and against all claims, demands, proceedings, damages, costs, charges, and expenses whatsoever in respect there of or in relation thereto. The Contractor shall defend all actions arising from such claims, unless he has informed the AIMT, before any such infringement and received their permission to proceed and shall himself pay all royalties, license fees, damages, cost and charges of all and every sort that may be legally incurred in respect thereof.

**17. Permits, Laws and Regulations**

Permits and licenses required for the execution of the work shall be obtained by the contractor at his own expenses. The contractor shall give notices and comply with the regulations, laws, and ordinances rules, applicable to the contract. If the contractor observes any discrepancy between the drawings and specifications, he shall promptly notify the AIMT in writing under intimation to AIMT. If the contractor performs any act which is against the law, rules and regulations he shall meet all the costs arising there from and shall indemnify the AIMT any legal actions arising there from.

18. **Obtaining Information Related to Execution of Work**

No claim by the contractor for payment shall be entertained for installation of Solar PV System. The Successful Bidder shall survey and study the rooftop area of location for the feasibility and maximum capacity (shadow free area), can be incorporated. Any incorrect information or the failure to obtain correct information will not relieve him from any risks or from the entire responsibility for the fulfillment of contract. All the acquired data to be certified/ approved by the AIMT Engineer, before proceeding further.

19. **Assignment and Subletting**

The whole of work included in the contract shall be executed by the contractor and he shall not directly entrust and engage or indirectly transfer / assign or under let the contract or any part or share thereof or interest therein without the written consent of the AIMT and nothing shall relieve the contractor from the responsibility of the contractor from active superintendence of the work during its progress.

20. **No Compensation for Restrictions Of Work**

If, at any time, after acceptance of the tender, AIMT shall decide to abandon or reduce the scope of work for any reason whatsoever and hence not require the whole or any part of the work to be carried out, the AIMT shall give notice in writing to that effect to the contractor and the contractor shall act accordingly in the matter. In such case, the contractor shall not claim any charges on the cartage or cost of materials brought to the site of the work by him. As project is OPEX model, ownership of material rests on the SPG, and he should remove materials and vacate the premises on his own.

21. **Suspension of Work**

(a) The contractor shall, on receipt of the order in writing of the AIMT (whose decision shall be final and binding on the contractor) suspend the progress of works or any part thereof for such time and in such manner as AIMT may consider necessary so as not cause any damage or injury to the work already done or endanger the safety thereof for any of following reasons. On account any default on the part of the contractor, or for proper execution of the works or part thereof for reasons other than the default of the contractor, or for safety of the works or part thereof.

(b) The contractor shall, during such suspension, properly protect and secure the works to the extent necessary and carry out the instructions given in that behalf by the AIMT. If the suspension is ordered for reasons (b) and (c) in sub-Para (i) above: The contractor shall be entitled to an extension of time equal to the period of every such suspension. No compensation whatsoever shall be paid on this account.

22. **Insurance of Works**

(a) Without limiting his obligations and responsibilities under the contract the contractor shall insure in the joint names of the AIMT and the contractor against all loss or damages from whatever cause arising other than the risks, for which he is responsible under the terms of contract and in such a manner that the AIMT and contractor are covered for the period stipulated in clause 23 of GCC and are also covered during the period of maintenance for loss or damage arising from a cause, occurring prior to the commencement of the period of maintenance and for any loss or damage occasioned by the contractor in the course of any operations carried out by him for the purpose of complying with his obligations under clause.

(b) The works for the time being executed to the estimated current Contract value thereof, or such additional sum as may be specified together with the materials for incorporation in the works at their replacement value. The constructional plant and other things brought on to the site by the contractor to the replacement value of such constructional plant and other things. Such insurance shall be effected with an insurer and in terms approved by the AIMT which approval shall not be unreasonably withheld and the contractor shall whenever required produce to the AIMT / AIMT the policy of insurance and the receipts for payment of the current premiums.

**23. Damage to Persons and Property**

(a) The contractor shall, except if and so far as the contract provides otherwise, indemnify the AIMT against all losses and claims in respect of injuries or damages to any person or material or physical damage to any property whatsoever which may arise out of or in consequence of the execution and maintenance of the works and against all claims proceedings, damages, costs, charges and expenses whatsoever in respect of or in relation thereto except any compensation of damages for or with respect to The permanent use or occupation of land by or any part thereof. The right of AIMT to execute the works or any part thereof, on, over, under, in or through any lands. Injuries or damages to persons or properties which are unavoidable result of the execution or maintenance of the works in accordance with the contract.

(b) Injuries or damage resulting from any act or neglect of contractor, to persons or property of the AIMT, their agents, employees or other contractors not being employed by the contractor or in respect of any claims, proceedings, damages, costs, charges and expenses in respect thereof or in relation thereto or where the injury or damage was contributed to by the contractor, his servants or agents such part of the compensation as may be just and equitable having regard to the extent of the responsibility of the AIMT, their employees, or agents or other employees, or agents or other contractors for the damage or injury.

**24. Contractor to Indemnify AIMT**

The contractor shall indemnify the AIMT against all claims, proceedings, damages, costs, charges and expenses in respect of the matters referred to in the provision.

**25. Contractor's Superintendence**

The contractor shall fully indemnify and keep indemnified the AIMT against any action, claim, or proceeding relating to infringement or use of any patent or design or any alleged patent or design rights and shall pay any royalties which may be payable in respect of any article or part thereof included in the contract. In the event of any claim made under or action brought against AIMT in respect of such matters as aforesaid the contractor shall be immediately notified thereof and the contractor shall be at liberty, at his own expenses to settle any dispute or to conduct any litigation that may arise there from, provided that the contractor shall not be liable to indemnify the AIMT if the infringement of the patent or design or any alleged patent or design right is the direct result of an order passed by the AIMT in this behalf.

**26. Third Party Insurance**

(a) Before commencing the execution of the work the contractor but without limiting his obligations and responsibilities under clause 09.0 of GCC shall insure against his liability for any material or physical damage, loss, or injury which may occur to any property including that of AIMT, or to any person, including any employee of the AIMT, by or arising out of the execution of the works or in the carrying out of the contract, otherwise than due to the matters referred to in the provision to clause 2.0 & 9.0 thereof.

(b) Minimum Amount of Third-Party Insurance: Such insurance shall be effected with an insurer and in terms approved by the AIMT which approval shall not be reasonably withheld and for at least the amount stated below. The contractor shall, whenever required, produce to the AIMT the policy or policies of insurance cover and receipts for payment of the current premiums.

**27. Minimum Insurance Cover**

(a) The minimum insurance cover for physical property, injury, and death is Rs.5.0 lacs per occurrence with the number of occurrences limited to four. After each occurrence contractor will pay additional premium necessary to make insurance valid for four occurrences always. Accident or Injury to Workmen. The AIMT shall not be liable for or in respect of any damages or compensation payable at law in respect or in consequence of any accident or injury to any workmen or other person in the employment of the contractor or any sub-contractor, save and except an accident or injury resulting from any act or default of the AIMT or their agents, or employees. The contractor shall indemnify and keep indemnified AIMT against all such damages and compensation, save and except as aforesaid and against all claims, proceedings, costs, charges and expenses whatsoever in respect thereof or in relation thereto.

(b) Insurance against accidents etc. to workmen the contractor shall insure against such liability with an insurer approved by the AIMT during the whole of the time any person employed by him on the works and shall, when required, produce to the AIMT such policy of insurance and receipt for payment of the current premium. Provided always that, in respect of any persons employed by any sub-contractor the contractor's obligation to insure as aforesaid under this sub-clause shall be satisfied if the sub-contractor shall have insured against the liability in respect of such persons in such manner that AIMT is indemnified under the policy but the contractor shall require such sub-contractor to produce to the AIMT when required such policy of insurance and the receipt for the payment of the current premium.

(c) Remedy on Contractor's failure to insure If the contractor fails to effect and keep in force the insurance referred to above or any other insurance which he may be required to effect under the terms of contract, then and in any such case the AIMT may effect and keep in force any such insurance and pay such premium or premiums as may be necessary for that purpose and from time to time deduct the amount so paid by the AIMT as aforesaid and also deduct 15% of contract value from any amount due or which may become due to the contractor, or recover the same as debt from the contractor.

(iv) Without prejudice to the other rights of the AIMT against contractors, in respect of such default, the AIMT shall be entitled to deduct from any sums payable to the contractor the amount of any damage's costs, charges, and other expenses paid by the AIMT and which are payable by the contractors under this clause. The contractor shall upon settlement by the insurer of any claim made against the insurer pursuant a policy taken under this clause, proceed with due diligence to rebuild or repair the works destroyed or damaged. In this event all the moneys received from the insurer in respect of such damage shall be paid to the contractor and the contractor shall not be entitled to any further payment in respect of the expenditure incurred for rebuilding or repairing of the materials or goods destroyed or damaged.

**28. Time for Completion**

Time is the essence of the contract and shall be strictly observed by the contractor. The entire work shall be completed within a period as mentioned in Notice from the date of commencement. If required in the contract or as directed by the AIMT, the contractor shall complete certain portions of work before completion of the entire work. However, the completion date shall be reckoned as the date by which the whole work is completed as per the terms of the contract.

**29. Extension of Time**

If the contractor needs an extension of time for the completion of work or if the completion of work is likely to be delayed for any reasons beyond control and the due date of completion as stipulated in the contract, the contractor shall apply to the AIMT in writing at least 15 days before the expiry of the scheduled time and while applying for extension of time he shall furnish the reasons in detail and his justification if any, for the delays. The Vendor shall submit their recommendations to the AIMT in the prescribed format for granting extension of time. While granting extension of time the contractor shall be informed the period extended time which will qualify for levy of liquidated damages. For the balance period in excess of original stipulated period and duly sanctioned extension of time by the AIMT the provision of liquidated damages as stated under clause 6.1 & 26.1 of GCC shall become applicable. Further contract shall remain in force even for the period beyond the due date of completion irrespective whether the extension is granted or not.

**30. Rate of Progress**

Whole of the materials, plant and labour to be provided by the contractor and the mode, manner and speed of execution and maintenance of the works are to be of a kind and conducted in a manner to the satisfaction of the AIMT. Should the rate of progress of the work or any part thereof be at any time be in the opinion of the AIMT too slow to ensure the completion of the whole of the work by the prescribed time (in NIT) or extended time for completion the AIMT shall thereupon take such steps as considered necessary by the AIMT to expedite progress so as to complete the works by the prescribed time or extended time. Such communications from the AIMT neither shall relieve the contractor from fulfilling obligations under the contract nor he shall be entitled to raise any claims arising out of such directions.

**31. Liquidated Damages/ Penalty**

(a) If the contractor fails to maintain the required progress in terms of to complete the work and clear the site including removing debris on or before the contracted or extended date or completion without justification in support of the cause of delay, he may be called upon without prejudice to any other right of remedy available under the law to the AIMT on account of such breach to pay a liquidated damages at the rate of 0.5% of the security deposit per week subject to a maximum of 5% of the security deposit.

(b) All costs, damages or expenses which AIMT may have paid or incurred, which under the provisions of the Contract, the Successful bidder is liable/will be liable, will be claimed by the AIMT. All such claims shall be billed by the AIMT to the Contractor/ Successful bidder under the contractor may be recovered by actions of law or otherwise, if the Successful bidder fails to satisfy the AIMT of such claims.

(c) In any case in which under any clause or clauses of this contract, the Contractor shall have rendered himself liable to pay compensation amounting to the whole of his security deposit the AIMT shall have the power to rescind the contract (of which rescission notice in writing to the contractor by the AIMT shall be conclusive evidence) and in which case the security deposit of the contractor shall be forfeited and be absolutely at the disposal of AIMT.

**32. Virtual Completion Certificate (VCC)**

On successful completion of entire works covered by the contract to the full satisfaction of the AIMT, the contractor shall ensure that the following works have been completed to the satisfaction of the AIMT:-

(a) Clear the site of all scaffolding, wiring, pipes, surplus materials, contractor's labour, equipment and machinery. Demolish, dismantle and remove the contractor's temporary works, structures including labour sheds/camps and constructions (if any) and other items and things whatsoever brought upon or erected at the site or any land allotted to the contractor by the AIMT and not incorporated in the permanent works.

(b) Remove all rubbish, debris etc. from the site and the land allotted to the contractor by the AIMT and shall clear, level and dress, impact the site as required by the AIMT. All defects/imperfections made to AIMT properties while installation of Solar PV System have been attended and rectified as pointed out by the AIMT to the full satisfaction of AIMT. Upon the satisfactory fulfillment by the contractor as stated above, the contractor shall be entitled to apply to the AIMT for the certificate. If the AIMT is satisfied of the completion of the work, relative to which the completion certificate has been sought, the AIMT shall within fourteen (14) days, issue a VCC in respect of the work for which the VCC has been applied.

**Note: The VCC issued by AIMT is not intended to depict successful commissioning of Solar PV system, it assents to the Power Purchase agreement (PPA) contract execution.**

### **33. Commissioning**

The projects shall be commissioned, within a period of **3 months** from the date of execution of the LoA. Subject, delay in commissioning, beyond the Scheduled Commissioning Period shall involve penalties, on the Solar Power Generator. Any extension of the PPA period beyond 15 years shall be through mutual agreements between the SPG and AIMT.

### **34. Payment Terms**

No advance payment in any form will be granted for the works proposed. The Capital and O&M cost for the Solar PV System shall be borne by the successful bidder, system completely owned by them; Rooftop area shall be provided by the AIMT. As per the quoted rate per unit on monthly basis Generated power shall be purchased by the AIMT, subject to the terms & conditions. The tariff at which the AIMT shall purchase the Output from the Service Provider/ SPG will be as per quoted as per Price bid (Unit Price) (inclusive of all expenses, duties and levies excluding GST).

## **BILLING AND TERMS OF PAYMENT**

(a) The customer will be charged on a monthly basis, an amount that is equal to the Unit Price, multiplied by the monthly output from the System as per joint Meter Reading Report ("Metered Generation") and/or Deemed Generation.

(b) The monthly invoice will be raised by the Service Provider on the AIMT for the Metered Generation and/or Deemed Generation supplied by it in the immediately preceding calendar month, or part thereof, within a period of five(5) days from the end of each calendar month ("Monthly Invoice").

(c) Each monthly Invoice shall state the Tariff and Taxes payable by the AIMT calculated with reference to the Metered Generation and/or Deemed Generation. The Customer shall make payment of the Monthly Invoice to the account of the Service Provider as shall be specified in the Monthly Invoice through electronic funds transfer/RTGS only.

### **35. Work by other Agencies**

The AIMT reserves the rights to use premises and any portion of the site for execution of any work not included in the scope of this contract which it may desire to have carried out by other persons simultaneously and the contractor shall not only allow but also extend reasonable facilities for the execution of such work. The contractor however shall not be required to provide any plant or material for the execution of such work except by special arrangement with the AIMT. Such work shall be carried out in such manners not to impede the progress of the works included in the contract.

**36. Owner's Right to Terminate the Contract**

(a) If the contractor being an individual or a firm commit any 'Act of Insolvency' or shall be adjusted an insolvent or being an incorporated company shall have an order for compulsory winding up voluntarily or subject to the supervision of Government and of the Official Assignees of the liquidator in such acts of insolvency or winding up shall be unable within seven days after notice to him to do so, to show to the reasonable satisfaction of the AIMT that he is able to carry out and fulfill the contract, and to give security therefore if so required by the AIMT. Or if the contractor (whether an individual firm or incorporated Company) shall suffer execution to be issued or shall suffer any payment under this contract to be attached by or on behalf of any of the creditors of the contractor. Or shall assign or sublet this contract without the consent in writing of the AIMT or shall charge or encumber this contract or any payment due to which may become due to the contractor there under.

Has abandoned the contract; or

(b) Has failed to commence the works, or has without any lawful excuse under these conditions suspended the progress of the works for 14 days after receiving from the AIMT written notice to proceed, or

(c) Has failed to proceed with the works with such diligence and failed to make such due progress as would enable the works to be completed within the time agreed upon, or

(d) Has failed to remove the materials from the site or to pull down and replace work within seven days after written notice from the AIMT that the said materials were condemned and rejected by the AIMT under these conditions; or

(e) Has neglected or failed persistently to observe and perform all or any of the acts, matters or things by this contract to be observed and performed by the contractor for seven days after written notice shall have been given to the contractor to observe or perform the same or has to the detriment of good workmanship or in defiance of the AIMT's instructions to the contrary subject any part of the contract. Then and in any of said cases the AIMT, after giving seven days' notice in writing to the contractor, terminate the contract without any conditional clauses.

**37 Settlement of Disputes and Arbitration**

Except where otherwise provided in the contract all questions and disputes relating to the meaning of the specifications, design, drawings and instructions herein before mentioned and as to the quality of workmanship or materials used on the work or as to any other question, claim, right, matter or thing whatsoever in any way arising out of or relating to the contract, designs, drawings, specifications, estimates, instructions, orders or these conditions or otherwise concerning the work or the execution or failure to execute the same, whether arising during the progress of the work or after the cancellation, termination, completion or abandonment thereof shall be dealt with as mentioned hereinafter. If the contractor considers that he is entitled to any extra payment or compensation in respect of the works over and above the amounts admitted as payable by the AIMT or in case the contractor wants to dispute the validity of any deductions or recoveries made or proposed to be made from the contract or raise any dispute, the Contractor shall forthwith give notice in writing of his claim, or dispute to the appropriate authority) and endorse a copy of the same to the AIMT, within 30 days from the date of dis allowance thereof or the date of deduction or recovery. The said notice shall give full particulars of the claim, grounds on which it is based and detailed calculations of the amount claimed and the contractor shall not be entitled to raise any claim nor shall the AIMT be in any way liable in respect of any claim by the contractor unless notice of such claim shall have been given by the contractor to the appropriate authority in the manner and within the time as aforesaid. The contractor shall be deemed to have waived and extinguished all his rights in respect of any claim not notified to the appropriate authority in writing in the manner and within the time aforesaid.

## **SPECIAL CONDITIONS OF CONTRACT**

In the event of any discrepancy with clauses mentioned anywhere else in the tender with the clauses mentioned within General conditions of contract, the clauses mentioned within the special conditions of contract shall supersede those mentioned elsewhere.

### **1. Work During Nights and Holidays**

(a) Subject to any provision to the contrary contained in the contract no permanent work shall save as herein provided be carried on during the night or on holidays without the permission in writing of the AIMT, except when the work is unavoidable or absolutely necessary for the saving of life or property or for the safety of the work in which case the contractor shall immediately advise the AIMT.

(b) However, the provision of the clause shall not be applicable in the case of any work which become essential to carry by rotary or double shifts in order to achieve the progress and quality of the part of the works being technically required and continued with the prior approval of the AIMT at no extra cost to the AIMT. All work at night after obtaining approval from competent authorities shall be carried out without unreasonable noise and disturbance.

### **2. Cutting and Making Good**

Where it is found necessary to interfere with finished work in order to execute this contract, the contractor will be required to do all necessary work at his expenses. Only approved hangers and bolts or other metal fixing devices shall be used to secure frames panels and other units in position. Wooden plugs will not be permitted. Holes shall be formed with electric drills whenever possible. Anyhow, Roof punctures/ Ceiling drills are not allowed without the permission from AIMT. Structural members shall not be cut or drilled without prior consent of the client.

### **3. Typographical Clerical Errors**

The Employer/ AIMT clarification regarding partially omitted particulars of typographical or Clerical errors shall be final and binding on the contractors.

### **4. Water & Power Supply**

The contractor shall make his own arrangements for water required for the work and nothing extra will be paid for the same. The contractor shall make his own arrangements for power and supply/ distribution system for driving plant or machinery for the work and for lighting purpose at his own cost. He has to obtain necessary approvals from the appropriate authorities, if required.

### **5. Custody and Security of Materials**

When any materials intended for the works shall have been placed at site by the Contractor, such material shall not be removed there without the written authority of the Employer / AIMT, the contractor shall be liable for any loss or damage to any such materials. The contractors shall be responsible for the custody and security of all materials and equipment at site and he will provide full time watchman / watchmen to look after his materials, stores, equipment's etc.

### **6. Maintenance of Registers**

The contractor shall maintain the following registers as per the enclosed format at site of work and should produce the same for inspection of AIMT/AIMT whenever desired by them. The contractor shall also maintain the records/registers as required by the local authorities/Government from time to time. Register for hindrance to work. Register for labour

**7. Local Laws, Acts, Regulations**

The contractor shall strictly adhere to all prevailing labour laws inclusive of Contract Labour (Regulation and Abolition Act of 1970) and other safety regulations. The contractor shall comply with the provision of all labour legislation including the latest requirements of all the Acts, laws, any other regulations that are applicable to the execution of the project.

- (a) Minimum Wages Act, 1948 (Amended) Payment of Wages Act 1936 (Amended)
- (b) Workman's Compensation Act 1923 (Amended)
- (c) Contract Labour Regulation and Abolition Act 1970 and Central Rules 1971 (Amended) Apprentice Act 1961 (Amended) Industrial Employment (Standing Order) Act 1946 (Amended) Personal Injuries (Compensation Insurance) Act 1963 and any other modifications viii) Employees' Provident Fund and Miscellaneous Provisions Act 1952 and amendment thereof Shop and Establishment Act. Any other Act or enactment relating thereto, and rules framed there under from time to time. All the Licenses and necessary Registers to be maintained by the Contractor shall be verified by AIMT anytime.

**8. Amendment**

The Central Government may from time to time add to or amend the regulation and on any question as to the application, interpretation or effect of these regulations the decision of the Chief Labour Commissioner or Deputy Chief Labour Commissioner to the Government of India, or any other person authorized by the Central Government in that behalf shall be final.

**9. Other Conditions**

The Successful bidder shall not display the photographs of the work and not take advantage through publicity of the work without written permission of AIMT and owner of the Rooftop. The Successful bidder shall not make any other use of any of the documents or information of this contract, except for the purposes of performing the contract.

**10. Debarred from Participating in Roof Top Tender**

AIMT reserves the right to carry out the performance review of each Bidder from the time of submission of Bid onwards. In case it is observed that a bidder has not fulfilled its obligations in meeting the various timelines envisaged, in addition to the other provisions of the RFS, such Bidders may be debarred from participating in AIMT's any future tender for a period as decided by the competent authority of AIMT.

**11. Safety Code/Safety Measures**

The bidder shall take entire responsibility for electrical safety of the installation(s) including connectivity with the grid and follow all the safety rules & regulations applicable as per Electricity Act, 2003 and CEA guidelines etc.

**12. Force Majeure**

Neither contractor nor AIMT shall be considered in default in performance of their obligations if such performance is prevented or delayed by events such as war, hostilities revolution, riots, civil commotion, strikes, lockout, conflagrations, epidemics, accidents, fire, storms, floods, droughts, earthquakes or ordinances or any act of God or for any other cause beyond the reasonable control of the party affected or prevented or delayed. However, a notice is required to be given within 30 days from the happening of the event with complete details, to the other party to the contract, if it is not possible to serve a notice, within the shortest possible period without delay.

As soon as the cause of force majeure has been removed the party whose ability to perform its obligations has been affected, shall notify the other of such cessation and the actual delay incurred in such affected activity adducing necessary evidence in support thereof. From the date of occurrence of a case of force majeure obligations of the party affected shall be suspended during the continuance of any inability so caused. With the cause itself and inability resulting there from having been removed, the agreed time of completion of the respective obligations under this agreement shall stand extended by a period equal to the period of delay occasioned by such events. Should one or both parties be prevented from fulfilling the contractual obligations by a state of force majeure lasting to a period of 6 months or more the two parties shall mutually decide regarding the future execution of this agreement.

### **13. Accidents**

The contractor shall immediately on occurrence of any accident at or about the site or in connection with the execution of the work report such accident to the AIMT. The contractor shall also report immediately to the competent authority whenever such report is required to be lodged by the law and take appropriate actions thereof.

### **14. Insurance**

The Bidder shall be responsible and take an Insurance Policy for transit-cum-storage-cum-erection for all the materials to cover all risks and liabilities for supply of materials on site basis, storage of materials at site, erection, testing and commissioning. The bidder shall also take appropriate insurance during O&M period. The Bidder shall also take insurance for Third Party Liability covering loss of human life, engineers and workmen and also covering the risks of damage to the third party/material/equipment/properties during execution of the Contract. Before commencement of the work, the Bidder will ensure that all its employees and representatives are covered by suitable insurance against any damage, loss, injury or death arising out of the execution of the work or in carrying out the Contract. Liquidation, Death, AIMT ruptcy etc., shall be the responsibility of bidder.

### **15. Warranties**

#### **(a) Material Warranty:**

- (i) Material Warranty is defined as: The manufacturer should warrant the Solar Module(s) to be free from the defects and/or failures specified below for a period not less than five (05) years from the date of sale to the original customer ("Successful Bidder")
- (ii) Defects and/or failures due to manufacturing.
- (iii) Defects and/or failures due to quality of materials.
- (iii) Non-conformity to specifications due to faulty manufacturing and/or inspection processes. If the solar Module(s) fails to conform to this warranty, the manufacturer will repair or replace the solar module(s), the Owners sole option. Performance Warranty.
- (iv) The predicted electrical degradation of power generated not exceeding 20% of the minimum rated power over the 15-year period and not more than 10% after ten years period of the full rated original output.

#### **(b) General**

The Bidder shall warrant that the goods supplied under this contract are new, unused, of the most recent or latest technology and incorporate all recent improvements in design and materials. The bidder shall provide system warranty covering the rectification of any and all defects in the design of equipment, materials and workmanship including spare parts for a period of 15 years from the date of commissioning. AIMT will not be responsible in any way for any claims whatsoever on account of the above.

## **TECHNICAL SPECIFICATIONS**

The proposed projects shall be commissioned as per the technical specifications given below. Any shortcomings will lead to cancellation of contract in full or part as decided by AIMT & Competent Authority's decision will be final and binding on the bidder.

### **1. Definition**

(a) A Grid Tied Solar Roof Top Photo Voltaic (SPV) system shall consist of following equipment's/components. Solar PV modules consisting of required number of PV modules.

- (i) Grid interactive Power Conditioning Unit (Inverter, MPPT and Controls & Protections) Mounting structures.
- (ii) Junction Boxes.
- (iii) Interconnection cables & links.
- (iv) Cable trays/ UPVC Pipes for cable supports.
- (v) Earthing and lightening protections.
- (vi) Remote Data Monitoring System.
- (vii) IR/UV protected PVC Cables, Interconnect switches and accessories.

(b) Grid tied SPV system is without battery and should be designed with necessary features to supplement the grid power during daytime. Components and parts used in the SPV power plants including the PV modules, metallic structures, cables, junction box, switches, PCUs etc., should conform to the BIS or IEC or international specifications, wherever such specifications are available and applicable.

### **2. Planning and Designing**

(a) The bidder should carry out Shadow Analysis at the site and accordingly design strings & arrays layout considering optimal usage of space, material and labor. The bidder should submit the array layout drawings along with Shadow Analysis Report to AIMT for approval.

(b) AIMT reserves the right to modify the landscaping design, Layout and specification of sub- systems and components at any stage as per local site conditions/requirements.

(c) The bidder shall submit preliminary drawing for approval & based on any modification or recommendation, if any. The bidder submits three sets and soft copy in CD of final drawing for formal approval to proceed with construction work.

### **DRAWINGS TO BE FURNISHED BY BIDDER AFTER AWARD OF CONTRACT**

(1) Apart from Shadow analysis report of the roof & wind load calculation sheet, bidder must submit following drawings:-

- (a) The Contractor shall furnish the following drawings Award/Intent and obtain approval.
- (b) General arrangement and dimensioned layout.
- (c) Schematic drawing showing the requirement of SV panel, Power conditioning Unit(s)/inverter, Junction Boxes, AC and DC Distribution Boards, meters etc.
- (d) Structural drawing along with foundation details for the structure.
- (e) Layout of solar Power Array

2. On approval of the General Arrangement drawings bidder shall be responsible for submission two sets of Engineering, electrical drawings and Installation and O&M manuals, technical data sheets for each equipment giving details of the specifications along with make/makes in their bid along with basic design of the power plant and power evacuation synchronization along with protection equipment.

**3. Solar Photovoltaic Modules**

- (a) The PV modules used should be made in India.
- (b) The PV modules used must qualify to the latest edition of IEC PV module qualification testor equivalent BIS or equivalent IS.
- (c) PV modules must be tested and approved by one of the IEC authorized test centers.
- (d) Product warranty for 15 years (Both for Power and Performance) for material and workmanship
- (e) Other general requirement for the PV modules and subsystems shall be the Following:-

Type	Crystalline silicon (mono or multi)/ Concentrated PV Modules (CVP or HCVP)
Efficiency	$\geq 13\%$
Fill factor	$\geq 70\%$
Module frame	Frameless/ Non-corrosive and electrolytically compatible with the mounting structure material
Termination box	Thermo-plastic, IP 65, UV resistant
Blocking diodes	Schottky type
Module minimum rated power	The nominal power of a single PV module shall not be less than 240Wp.
Power output rating	To be given for standard test conditions (STC). I-V curve of the sample module shall be submitted.
Rated o/p power tolerance	+/- 3%
Rated for wind loads	up to 2,400 Pa
Operating temperature	-40°C to 85°C

**4. Identification and Traceability**

Modules deployed must use a RF identification tag. The following information must be mentioned in the RFID used on each module (This can be inside or outside the laminate but must be able to withstand harsh environmental conditions).

- (a) Name of the manufacturer of the PV module
- (b) Name of the manufacturer of Solar Cells.
- (c) Month & year of the manufacture (separate for solar cells and modules)
- (d) Country of origin (separately for solar cells and module)
- (e) I-V curve for the module Wattage,  $I_m$ ,  $V_m$  and FF for the module
- (f) Unique Serial No and Model No of the module
- (g) Date and year of obtaining IEC PV module qualification certificate.
- (h) Name of the test lab issuing IEC certificate.
- (i) Other relevant information on traceability of solar cells and module as per ISO 9001 and ISO14001.

**5. Array/ Mounting Structure**

- (a) Structural material shall be corrosion resistant and electrolytic ally compatible with the materials used in the module frame, its fasteners, nuts and bolts. Aluminum structures also can be used which can withstand the wind speed of respective wind zone. Necessary protection towards rusting need to be provided either by coating or iodization. Suitable fastening arrangement such as grouting and calming should be provided to secure the installation against the specific wind speed.
- (b) The fasteners used should be made up of stainless steel. The structures shall be designed to allow easy replacement of any module. The array structure shall be so designed that it will occupy minimum space without sacrificing the output from the SPV panels
- (c) Regarding civil structures the bidder need to take care of the load bearing capacity of the roof and need arrange suitable structures based on the quality of roof.
- (d) The total load of the structure (when installed with PV modules) on the terrace should be less than 60 kg/m<sup>2</sup>.
- (e) The minimum clearance of the structure from the roof level should be 300 mm. However, to accommodate more capacity the angle inclination may be reduced until the plant meets the specified performance ratio requirements.
- (f) Bidder can use Single axis tracking (East–West) to maximize the power output, on their own risk.

**6. Junction Boxes (JBs)**

- (a) The junction boxes are to be provided in the PV array for termination of connecting cables. The J. Boxes (JBs) shall be made of FRP/Powder Coated Aluminum. All wires/cables must be terminated through cable lugs. The JB's shall be such that input & output termination can be made through suitable cable glands.
- (b) Copper bus bars/terminal blocks housed in the junction box with suitable termination threads conforming to IP65 standard and IEC 62208 Hinged door with EPDM rubber gasket to prevent water entry. Each Junction Box shall have High Quality Suitable Capacity Metal Oxide Varistors (MOVs) / SPDs, suitable Reverse Blocking Diodes.

**7. DC Distribution Board**

DC DPBs shall have sheet from enclosure of dust & vermin proof conform to IP 65 protection and compatible for MC4 connectors. The bus bars are made of copper of desired size. Suitable capacity MCBs/MCCB shall be provided for controlling the DC power output to the PCU along with necessary surge arrestors (DC surge protection device (SPD), class 2 as per IEC 60364-5-53). If a DC isolator is used instead of a DC circuit breaker, a DC fuse shall be installed inside the DC Distribution Box to protect the DC cable that runs from the DC Distribution Box to the Solar Grid Inverter.

**8. AC Distribution Panel Board**

- (a) AC Distribution Panel Board (DPB) shall have necessary surge arrestors. Interconnection from ACDB to mains at LT Bus bar while in grid tied mode.
- (b) All the termination works related to changeover switches; cabling work should be undertaken by the bidder as part of the project.
- (c) All the Panel's shall be metal clad, totally enclosed, rigid, floor mounted, air-insulated, cubical type suitable for operation on three phase / single phase, 415 or 230 volts, 50 Hz

(d) The panels shall be designed for minimum expected ambient temperature of 45 degreeCelsius, 80 percent humidity and dusty weather.

(e) All indoor panels will have protection of IP54 or better. All outdoor panels will have protection of IP65 or better. Should conform to Indian Electricity Act and rules (till last amendment).

(f) All the 415 V AC or 230 volts' devices / equipment like bus support insulators, circuit breakers, SPDs, VTs etc., mounted inside the switchgear shall be suitable for continuous operation and satisfactory performance under the following supply conditions

Variation in supply voltage	+/- 10 %
Variation in supply frequency	+/- 3 Hz

**10 PCU/Array Size Ratio**

(a) The combined wattage of all inverters should not be less than rated capacity of power plant under STC.

(b) Maximum power point tracker shall be integrated in the PCU/ inverter to maximize energy drawn from the array.

**11. PCU/ Inverter:**

(a) The PCU including MPPT (Maximum Power Point Tracker), an interface between Solar PV array & the Inverter, to the power conditioning unit/inverter should also be DG set interactive. If necessary, Inverter output should be compatible with the grid frequency. Typical technical features of the inverter shall be as follows:

Switching devices	:	IGBT/MOSFET
Control	:	Microprocessor /DSP
Nominal AC output voltage and frequency	:	415V, 3 Phase, 50 Hz
Grid Frequency Synchronization range	:	+ 3 Hz or more
Ambient temperature considered	:	20° C to 50° C
Humidity	:	95 % Non-condensing
Protection of Enclosure	:	IP-20(Minimum) for indoor. IP-65(Minimum) for outdoor.
Grid Frequency Tolerance range	:	+ 3 or more
Grid Voltage tolerance	:	- 20% & + 15 %
No-load losses	:	Less than 1% of rated power
Inverter efficiency (minimum)	:	>93% (In case of 10kW or above)
THD	:	< 3%
PF	:	> 0.9
Display type	:	LCD for data display. LCD / LED for status display
Communication interface	:	RS 485 / RS 232 / RJ45

(b) PCU/inverter shall be capable of complete automatic operation including wake-up, synchronization & shutdown.

(c) The output of power factor of PCU inverter is suitable for all voltage ranges or sink of reactive power, inverter should have internal protection arrangement against any sustainable fault in feeder line and against the lightning on feeder.

(d) The PCU/ inverters should be tested from the MNRE approved test centers / NABL /BIS/IEC accredited testing- calibration laboratories. In case of imported power conditioning units, these should be approved by international test houses.

**12. Data Acquisition System / Plant Monitoring**

- (a) Built-in meter and data logger to monitor plant performance through external computer (IoT) shall be provided for each of the solar PV plant.
- (b) Solar Irradiance: An integrating Pyranometer / Solar cell-based irradiation sensor (along with calibration certificate) provided, with the sensor mounted in the plane of the array. Readout integrated with data logging system.
- (c) Temperature: Temperature probes for recording the Solar panel temperature and/or Ambient temperature to be provided complete with readouts integrated with the data logging system.
- (d) Electrical Energy: Digital Energy Meters to log the actual value of AC/ DC voltage, Current & Energy generated by the PV system provided. The following parameters are accessible via the operating interface display in real time separately for solar power plant:-
  - (i) AC Output current.
  - (ii) AC Voltage.
  - (iii) Output Power
  - (iv) Power factor.
  - (v) DC Input Voltage.
  - (vi) DC Input Current.
  - (vii) Time Active.
  - (viii) Time disabled.
  - (ix) Time Idle.
  - (x) Power produced and feed-in Protective function limits (Viz-AC Over voltage, AC Under voltage, Over frequency, Under frequency ground fault, PV starting voltage, PV stopping voltage.
- (e) All major parameters available on the digital bus and logging facility for energy auditing through the internal microprocessor and read on the digital front panel at any time) and logging facility (the current values, previous values for up to 6 months and the average values) should be made available for energy auditing through the internal microprocessor and should be read on the digital front panel.
- (f) Computerized DC String/Array monitoring and AC output monitoring shall be provided as part of the inverter and/or string/array combiner box or separately. String and array DC Voltage, Current and Power, Inverter AC output voltage and current (All 3 phases and lines), AC power (Active, Reactive and Apparent), Power Factor and AC energy (All 3 phases and cumulative) and frequency shall be monitored.
- (g) Computerized AC energy monitoring shall be in addition to the digital AC energy meter. The data shall be recorded in a common work sheet chronologically date wise. The data file shall be MS Excel compatible. The data shall be represented in both tabular and graphical form.
- (h) All instantaneous data shall be shown on the computer screen. Software shall be provided for USB/ internet download and analysis of DC and AC parametric data for individual plant.
- (j) Remote Monitoring and data acquisition through Remote Monitoring System software at the owner / AIMT location with latest software/hardware configuration and service connectivity for online / real time data monitoring/control complete to be supplied and operation and maintenance/control to be ensured by the supplier. Provision for interfacing these data on AIMT server and portal in future shall be kept.

## 12. **Cables**

Cables of appropriate size to be used in the system shall have the following characteristics:-

- (a) Temp. Range:  $-10^{\circ}\text{C}$  to  $+80^{\circ}\text{C}$ .
- (b) Voltage rating 1100V grade Flexible and excellent resistance to fire (FRLS), heat, cold, water, oil, abrasion, UV radiation.
- (c) Sizes of cables between array interconnections, array to junction boxes, junction boxes to Inverter etc. shall be so selected to keep the voltage drop (power loss) of the entire solar system to the minimum. The cables (as per IS) should be insulated with a special grade PVC compound formulated for outdoor use.
- (d) Cable Routing/ Making: All cable/wires are to be routed in a GI cable tray and suitably tagged and Marked with proper manner by good quality ferrule or by other means so that the cable easily identified.
- (e) The Cable should be so selected that it should be compatible up to the life of the solar PV panels i.e. 15 years.
- (f) Multi Strand, Annealed high conductivity copper conductor PVC type 'A' pressure extruded insulation or XLPE insulation. Overall PVC/XLPE insulation for UV protection Armored cable for underground laying. All cable trays including covers to be provided. All cables conform to latest edition of IEC/ equivalent BIS Standards as specified elsewhere in this document.
- (g) The size of each type of DC cable selected shall be based on minimum voltage drop however; the maximum drop shall be limited to 1%.
- (h) The size of each type of AC cable selected shall be based on minimum voltage drop however; the maximum drop shall be limited to 2 %.

## 13. **Connectivity**

The maximum capacity for interconnection with the grid at a specific voltage level shall be as specified in the Distribution Code/Supply Code of the State and amended from time to time. Utilities may have voltage levels other than standard ratings, DISCOMS may be consulted before finalization of the voltage level and specification be made accordingly.

## 14. **Metering**

- (a) The bidirectional electronic energy meter (0.5 S class) shall be installed for the measurement of import/Export of energy.
- (b) The bidder must take approval/NOC from the Concerned DISCOM for the connectivity, technical feasibility, and synchronization of SPV plant with distribution network and submit the same to AIMT before commissioning of SPV plant.
- (c) Reverse power relay shall be provided by bidder (if necessary), as per the local DISCOM requirement.

## 15. **Integration of PV Power with Grid**

- (a) The output power from the inverters feeds it into the main electricity grid after synchronization. In case of grid failure, or low or high voltage, solar PV system shall be out of synchronization and shall be disconnected from the grid. 4 pole isolation of inverter output with respect to the grid/ DG power connection need to be provided.
- (b) For buildings or loads with diesel generator backup, the wiring of the solar grid inverter shall be such that the solar grid inverter cannot run in parallel with the diesel generator. This implies that the solar grid inverter must be connected to a distribution board on the grid side of the automatic or manual change-over switch as shown in typical wiring diagram.
- (c) Metering and grid connectivity of the roof top solar PV system under this scheme would be the responsibility of the Bidder in accordance with the prevailing guidelines of the concerned DISCOM and / or CEA (if available by the time of implementation). AIMT could facilitate connectivity; however, the entire responsibility lies with bidder only.

**16. Power Consumption**

Regarding the generated power consumption, Total power generated shall be purchased by AIMT, priority shall be given for internal consumption and thereafter any excess power shall be exported to grid. Calibrated Energy meter at the feed-in point shall be installed by the successful bidder for cumulative power consumption reading. Decisions of appropriate authority like DISCOM, state regulator may be followed.

**17. Protections**

The system should be provided with all necessary protections like earthing, Lightning, and grid islanding as follows:-

**(a) Lightning Protection**

The SPV power plants shall be provided with lightning & overvoltage protection. The main aim in this protection shall be to reduce the over voltage to a tolerable value before it reaches the PV or other sub system components. The source of over voltage can be lightning, atmosphere disturbances etc. The entire space occupying the SPV array shall be suitably protected against Lightning by deploying required number of Lightning Arrestors (not to use existing lightning arrestors of the building). Lightning protection should be provided as per IEC 62305 standard. The protection against induced high-voltages shall be provided by using the metal oxide varistors (MOVs) and suitable earthing such that induced transients find an alternate route to earth.

**(b) Surge Protection**

Internal surge protection shall consist of "3" MOV type effective surge-arrestors connected from +ve and -ve terminals to earth (via Y arrangement). Any damage of the AIMT appliances due to surge protection failure shall be the responsibility of successful bidder.

**(c) Earthing Protection**

Each array structure of the PV yard should be grounded/ earthed properly as per IS:3043- 1987. In addition, the lightning arrester/masts should also be earthed inside the array field. Earth Resistance shall be tested in presence of the representative of AIMT as and when required after earthing by calibrated earth tester. PCU, ACDB and DCDB should also be double earthed properly. Earth resistance shall not be more than 1 ohm. It shall be ensured that all the earthing points are bonded together (interlinked) to make them at the same potential.

**(d) Grid Islanding Protection**

In the event of a power failure on the electric grid, it is required that any independent power-producing inverters attached to the grid turn off in a short period of time. This prevents the DC-to- AC inverters from continuing to feed power into small sections of the grid, known as islands." The Rooftop PV system shall be equipped with islanding protection. In addition to disconnection from the grid (due to islanding protection) disconnection due to under and over voltage conditions shall also be provided. A manual disconnect 4pole isolation switch beside automatic disconnection to grid would have to be provided at utility end to isolate the grid connection by the utility personnel to carry out any maintenance. This switch shall be locked by the utility personnel.

**18. Tools & Tackles and Spares**

A list of requisite spares in case of PCU/inverter comprising of a set of control logic cards, IGBT driver cards etc. Junction Boxes. Fuses, MOVs / arrestors, MCCBs etc along with spare set of PV modules be indicated, which shall be supplied along with the equipment. A minimum set of spares shall be maintained in the plant itself for the entire period of warranty and Operation & Maintenance which upon its use shall be replenished.

**19. Danger Boards and Signage's**

Danger boards should be provided as and where necessary as per IE Act. /IE rules as amended upto date. Three signage shall be provided one each at battery –cum- control room, solar array area and main entry from administrative block. Text of the signage may be finalized in consultation with AIMT/ owner.

**20. Fire Extinguishers**

The firefighting system for the proposed power plant for fire protection shall be consisting of Portable fire extinguishers in the control room for fire caused by electrical short circuits Sand buckets in the control room. The installation of Fire Extinguishers should confirm to TAC regulations and BIS standards. The fireextinguishers shall be provided in the control room housing PCUs as well as on the Roof or site where the PV arrays have been installed.

**21. Safety Measures**

The bidder shall take entire responsibility for electrical safety of the installation(s) including connectivity with the grid and follow all the safety rules & regulations applicable as per Electricity Act, 2003 and CEA guidelines etc.

**22. Operation & Maintenance (O&M)**

The bidder shall be responsible for Operation and Maintenance of the Roof top Solar PV system fora period of 15 years (or) time period up to the transfer of ownership to AIMT, during which AIMT will monitor the project for effective performance in line with conditions specified elsewhere in the bid document.

**23. Plant Performance Evaluation**

(a) The successful bidder shall be required to meet minimum guaranteed generation with Performance Ratio (PR) at the time of commissioning and related Capacity Utilization Factor (CUF) as per the GHI levels of the location during the O&M period.

- (i) Performance Ratio = 75%
- (ii) Capacity Utilization Factor = 15%

(b) The bidder should send the periodic plant output details to AIMT for ensuring the CUF. The PR will be measured at Inverter output level during peak radiation conditions.

**24. Action where there is no Specification**

In case of any class of work for which there is no specification mentioned, the same will be carried out in accordance with the Indian Standards Specifications (IS)/ MNRE/ NISE/ BEE standards subject to the approval of the Employer / AIMT.

**PRICE BID**

The Bidder shall quote their fixed rate/ Tariff as per KWh (unit energy) for 15 years. CERC Regulations, 2012 will be followed adherently by the bidder for tariff.

**PRICE SCHEDULE**

S.N.	Description of Work & Services	Fixed tariff	Tenure
1	200 KWp Design, Supply, Installation, testing & Commissioning with 15 year Operations & Maintenance.	Rs. .... /per unit	15 years

Total Amount in words (INR .....  
.....)

Signature & Seal of Bidder

Accepted  
(Signature of bidder)

Note: Signed & Sealed copy of this Price Schedule to be attached as (Part-D)" by the bidder.

**QUALITY CERTIFICATION, STANDARDS AND TESTING FOR GRID-CONNECTED  
ROOF TOP SOLAR PV SYSTEMS/ POWER PLANTS**

Quality certification and standards for grid-connected rooftop solar PV systems are essential for the implementation of this technology. Hence, all components of grid-connected rooftop solar PV system/ plant must conform to the relevant standards and certifications given below:-

Solar PV Modules/ Panels IEC 61215/ IS 14286 Design Qualification and Type Approval for Crystalline Silicon Terrestrial Photovoltaic (PV) Modules

IEC 61646 / Equivalent IS (Under Dev)	Thin Film Terrestrial PV Modules Concentrator PV Modules & Assemblies
IEC 62108 IEC 61701	Salt Mist Corrosion Testing of Photovoltaic (PV) Modules Photovoltaic (PV) module performance testing and energy rating
IEC 61853- Part 1/ IS 16170:Part 1	–: Irradiance and temperature performance measurements, and power rating
IEC 62716	Photovoltaic (PV) Modules – Ammonia (NH <sub>3</sub> ) Corrosion Testing (As per the site condition like dairies, toilets)
IEC 61730-1,2	Photovoltaic (PV) Module Safety Qualification – Part 1: Requirements for Construction, Part 2: Requirements for Testing Solar PV Inverters
IEC 62109-1,	Safety of power converters for use in photovoltaic power systems – Part 1: General requirements, and Safety of power converters for use in photovoltaic power systems
IEC 62109-2	Part 2: Particular requirement for inverters. Safety compliance (Protection degree IP 65 for outdoor mounting, IP 54 for indoor mounting)
IEC 60068-2	Photovoltaic Systems – Power conditioners: Procedure for Measuring Efficiency (10%, 25%, 50%, 75% & 90-100% Loading Conditions)
IEC 62093 (as applicable)	Utility-interconnected Photovoltaic Inverters - Test Procedure of Islanding Prevention Measures
IEC/IS 61683 (as applicable)	Measuring relays and protection equipment – Part 27: Product safety requirements
IEC 62116/ UL 1741/ IEEE 1547 (as applicable)	Environmental Testing of PV System – Power Conditioners and Inverses
IEC 60255-27 IS/IEC 60947 (Part 1, 2 & 3), EN 50521	Fuses General safety requirements for connectors, switches, circuit breakers (AC/DC): Low-voltage Switchgear and Control-gear, Part 1: General rules Low-Voltage Switchgear and Control-gear, Part 2: Circuit Breakers Low-voltage switchgear and Control-gear, Part 3: Switches, disconnections, switch-disconnections and fuse-combination units EN 50521: Connectors for photovoltaic systems – Safety requirements and tests
IEC 60269-6 BFC 17-102:2011 IEC 60364-5-53/ IS 15086-5 (SPD)	Low-voltage fuses - Part 6: Supplementary requirements for fuse-links for the protection of solar photovoltaic energy systems Surge Arrestors. Lightning Protection Standard Electrical installations of buildings - Part 5-53: Selection and erection of electrical equipment - Isolation, switching and control

**COVERING LETTER**

*(The covering letter should be on the Letter Head of the Bidding Company)*

Ref. No.      Date:

From:

To  
(To be addressed to the inviter)

Dear Sir/s,

Ref:    TENDER No. Dated  
FOR

We, the undersigned having read, examined and understood in detail the Tender Document for Implementation of Grid connected Roof Top Solar PV System Scheme in Army College of Medical Science, Greater Noida hereby submit our Bid comprising of Price Bid and Techno Commercial Bid. We confirm that neither we nor any of our Parent Company / Affiliate/Ultimate Parent Company has submitted Bid other than this Bid directly or indirectly in response to the aforesaid Tender Invitation.

We give our unconditional acceptance to the (Tender NO & Date) and Tender Documents attached thereto, issued by AIMT, as amended. This shall also be construed as a token of our acceptance to the Tender Documents including all its amendments and clarifications uploaded on AIMT website.

We shall ensure that we execute such Tender Documents as per the provisions of the NIT and all provisions of such Tender Documents shall be binding on us.

**Bid Capacity**

We have bid for the locations of owned/ leased premises of Army College of Medical Science, Greater Noida in (OPEX) and have accordingly submitted our Price Bids for the same as per the Tender Conditions.

**Earnest Money Deposit**

We have enclosed a EMD of Rs....., in the form of Demand Draft no.....dated..... as per Format from .....(Insert name of AIMT providing DD)..... and valid up to .....in terms of Clause of this Tender Document.

We have submitted our Price Bid strictly as per Terms & Conditions of this Tender, without any deviations, conditions and without mentioning any assumptions or notes for the Price Bid in the said format(s).

We have enclosed a declaration for the Project to the effect that neither we will compromise in terms of quality of work and service providing for the AIMT, nor we shall misconduct in future with AIMT for implementation of the project.

-40-

**ACCEPTANCE**

We hereby unconditionally and irrevocably agree and accept that the decision made by AIMT in respect of any matter regarding or arising out of the Tender Document shall be binding on us. We hereby expressly waive any and all claims in respect of Bid process.

We confirm that there are no litigations or disputes against us, which materially affect our ability to fulfil our obligations with regard to execution of projects of capacity offered by us.

**FAMILIARITY WITH RELEVANT INDIAN LAWS & REGULATIONS**

We confirm that we have studied the provisions of the relevant Indian laws and regulations as required to enable us to submit this Bid and execute the Tender Documents, in the event of our selection as Successful Bidder. We further undertake and agree that all such factors as mentioned in Tender Conditions have been fully examined and considered while submitting the Bid.

We are enclosing herewith the Envelope (Covering letter, and EMD) and Envelope-II (Techno-Commercial documents) containing duly signed formats, each one duly sealed separately, in one original as desired by you in the Tender for your consideration.

It is confirmed that our Bid is consistent with all the requirements of submission as stated in the Tender and subsequent communications from AIMT. The information submitted in our Bid is complete, strictly as per the requirements stipulated in the Tender and is correct to the best of our knowledge and understanding. We would be solely responsible for any errors or omissions in our Bid. We confirm that all the terms and conditions of our Bid are valid for acceptance for a period of 6 month from the Bid deadline. We confirm that we have not taken any deviation to be deemed non- responsive.

Dated the .....day of \_\_\_\_\_ 2023

**Annexure-VI****FORMAT FOR PERFORMANCE BANK GUARANTEE (PBG)**

*{To be submitted separately for each location}*

*(To be on non-judicial stamp paper of appropriate value as per Stamp Act relevant to place of execution.)*

In consideration of the .....*[Insert name of the Bidder]* {hereinafter referred to as selected Successful Bidder(SB)} submitting the response to RFP inter alia for selection of the ---- **(Name of the Project)**----- in response to the -----**(Tender ID & Date)**----- issued by AIMT and AIMT considering such response to the RFP of .....*[insert the name of the Successful Bidder]*..... (which expression shall unless repugnant to the context or meaning thereof include its executors, administrators, successors and assignees) and selecting the Solar Power Project of the Solar Power Developer and issuing Letter of allocation No..... dated.....to.....*(insert the name of the Successful Bidder)* as per terms of RFP and the same having been accepted by the selected SB or a Project Company, M/s

As per the terms of the RFP, the.....*{Bank Name & Address}*..... hereby agrees unequivocally, irrevocably and unconditionally to pay to College Fund Account, AIMT, at Greater Noida. forthwith on demand in writing from AIMT or any Officer authorized by it in this behalf, any amount up to and not exceeding Rupees.....*[Total Value]*..... only, on behalf of M/s *(insert the name of the Successful Bidder)* [(SB)/Project Company]

This guarantee shall be valid and binding on this Bank up to and including [insert date of validity in accordance with Clause in instructions of this RFP] and shall not be terminable by notice or any change in the constitution of the Bank or the term of contract or by any other reasons whatsoever and our liability hereunder shall not be impaired or discharged by any extension of time or variations or alternations made, given, or agreed with or without our knowledge or consent, by or between parties to the respective agreement.

Our liability under this Guarantee is restricted to Rs. (In words Rupees only).

Our Guarantee shall remain in force until...../ AIMT shall be entitled to invoke this Guarantee till .....

The Guarantor Bank hereby agrees and acknowledges that AIMT shall have a right to invoke this Bank GUARANTEE in part or in full, as it may deem fit.

The Guarantor Bank hereby expressly agrees that it shall not require any proof in addition to the written demand by AIMT, made in any format, raised at the above mentioned address of the Guarantor Bank, in order to make the said payment to Bank.

The Guarantor Bank shall make payment hereunder on first demand without restriction or conditions and notwithstanding any objection by .....*(insert the name of the Successful Bidder)*.....[(SB)/ Project Company as applicable] and/or any other person.

The Guarantor Bank shall not require AIMT to justify the invocation of this Bank GUARANTEE, nor shall the Guarantor Bank have any recourse against Bank in respect of any payment made hereunder.

This Bank GUARANTEE shall be interpreted in accordance with the laws of India and the courts at Delhi shall have exclusive jurisdiction.

The Guarantor Bank represents that this Bank GUARANTEE has been established in such form and with such content that it is fully enforceable in accordance with its terms as against the Guarantor Bank in the manner provided herein.

This Bank GUARANTEE shall not be affected in any manner by reason of merger, amalgamation, restructuring or any other change in the constitution of the Guarantor Bank.

This Bank GUARANTEE shall be a primacy obligation of the Guarantor Bank and accordingly Bank shall not be obliged before enforcing this Bank GUARANTEE to take any action in any court or arbitral proceedings against the Successful Bidder(SB) / Project Company , to make any claim against or any demand on the Successful Bidder(SB)/ Project Company or to give any notice to the Successful Bidder(SB)/ Project Company or to enforce any security held by Bank or to exercise, levy or enforce any distress, diligence or other process against the Successful Bidder(SB)/ Project Company .

Notwithstanding anything contained hereinabove, our liability under this Guarantee is restricted to Rs.\_\_\_\_(In words Rupees only) and it shall remain in force until. We are liable to pay the guaranteed amount or any part thereof under this AIMT Guarantee only if Bank serves upon us a written claim or demand.
